Nourishing

OUR USF BULLS

Food matters. Food matters because it has a purpose. We all love to eat. Sitting down to enjoy our favorite foods can be the highlight of the day. The food choices we make directly impact our planet, our minds, and our bodies. USF Dining puts a focus on culinary innovation. Menus consist of fresh, seasonal, and signature dishes, with the USF Community in mind. Quality food provides the energy and nutrition each of us needs to reach our goals successfully every day. The USF Dining team creates an environment where you are at home, enjoying good food and making memories with friends.

The new student center will feature convenient dining options for residents to enjoy right where they live. Students will have a wide variety of choices, including grab-and-go options as well as delicious bites from local restaurants.

Have questions about how to eat for success? Our registered dietitian is ready to help you make healthy and tasty choices that work for you.

EDUCATION LLC

As a member of this community, you will explore a broad range of careers open to education majors, get to know the faculty of the College of Education, and engage in networking opportunities with guest speakers & local educators who are leaders in their respective fields. Residents will also be able to access workshops designed to enhance leadership and professional development and gain exposure to different areas of the teaching profession.

HONORS LLC

The Honors LLC will offer programs focused on academic support, residential community development, and career preparation.
